****YEAR END SPECIAL****

Avid + AJA

Buy one copy of Avid Media Composer 6¹ and a KONA I/O card (3G, LHi or LHe Plus) and get a premium Samsung LED HDTV Monitor² free!

1—Not applicable to cross-grades or software upgrades 2—Offer ends January 31, 2012 or while supplies last. Sorry, no

Avid Media Composer 6 has redefined the standard for non-linear editing. The premier NLE software offers more efficient and easy-to-use video editing tools, an open platform that enables you to work with everything you want and integrate into any workflow, and more power to eliminate bottlenecks.

KONA is the one name for Desktop I/O. Pick your KONA card to use with Avid Media Composer 6, for exceptional capability to manage highly demanding workflows and edit across technology boundaries with ease and speed.
